FOR IMMEDIATE RELEASE

Regal Lager conducting voluntary “Recall to Repair” of “Gems” strollers in cooperation with CPSC

KENNESAW, GEORGIA – January 27, 2010 – In the wake of the Maclaren recall Regal Lager and Cybex have responded in a quick and responsible way to the situation. Within one week of the news breaking about the situation with the Maclaren hinges, Cybex was ramping up production of a Hinge Cover of their own, as their strollers have a similar mechanism. Three Cybex stroller models (Ruby, Onyx and Topaz, from the Gems Collection) have a hinge mechanism that is similar and may pose a fingertip amputation and laceration hazard to the child when the consumer is unfolding/opening the stroller.

All Gems strollers shipped from our warehouse after November had hinge covers retrofit kit included and the new 2010 Gems models, ready to be shipped out in the near future, have hinge covers installed. Retailers have received hinge covers since early December for their inventory and floor models. Consumers are encouraged to go to our website www.regallager.com/recalls, call Regal Lager Customer Care on toll free (800)593-5522 or send an e-mail to info@regallager.com to receive a free and easy to install hinge cover retrofit kit and instructions. Please note that the Cybex Callisto is not affected of this Recall to Repair due to its unique hinge design.

There has been one incident, reported to us right after the Maclaren recall, and everything is fine with this child. We are proud to work with manufacturers that are responsible and proactive in situations where a child’s safety may be compromised.

CYBEX International, Ltd.
